Agricultural Labour

Invisible Labour in Agriculture: Local Products With(out) Fair Work

Silvie Frei and Marko Mrcarica

The increasing pace of globalisation has shown implications on Swiss agriculture. The pressure on farms is high due to competition with an international market. As a consequence, the production costs are cut wherever possible, resulting in low wages for agricultural labour and high working hours. One wonders, what kind of person is actually willing to work under such tough conditions?

Contents

1 Invisible Labour
2 Changes In Agricultural Labour
3 Disappearance of the Traditional Family Farm
4 Alternative Production Models For Fair Working Conditions

This work by Silvie Frei and Marko Mrcarica was created as part of the design studio Soil, Water, Labour at ETH Zurich in Fall 2020. The PDF is intended for educational purposes only. Its commercial distribution is strictly forbidden.
